## Education

| | |
|---|---|
| **Don Bosco Institute Of Technology, Bangalore** | **2019 − 2023** |
| *Bachelor of Engineering in the branch of Computer Science* | *GPA: 8.0/10* |
| **Kendriya Vidyalaya, Janakpuri** | **2017 − 2018** |
| *XII, CBSE* | *Percentage: 71.8/100* |
| **Kendriya Vidyalaya, Janakpuri** | **2015 − 2016** |
| *X, CBSE* | *CGPA: 8.6/10* |

## Technical Skills

**Languages**: Java, HTML, CSS, Javascript, Tailwind CSS, TypeScript
**FrontEnd Framework**: ReactJS, Material UI, BootStrap
**Version Control**: Git, GitHub

## Experience

**Sarovi Software solutions** — **Mar 2024 − Present**
*Front-End Intern* — *Remote*

- Assisted development team in building **responsive and dynamic** user interfaces for web applications.
- Gained exposure to frontend frameworks such as **React.js**, enhancing understanding of **modern development** practices.
- Demonstrated strong attention to detail and problem-solving skills in implementing **pixel-perfect UI** designs.

**Simran Traders** — **Aug 2022 − Sept 2022**
*Intern* — *Remote*

∗ Led testing initiatives for an operational Object Detection Model tailored for hotel amenities identification.
∗ Successfully implemented the model to proficiently recognize and classify a range of amenities provided by hotels for guests and tourists.
∗ Played a pivotal role in curating diverse datasets, evaluating accuracy rates, and conducting comparative analyses with other existing models to ensure optimal performance.

## Projects

**Social Media Web-App** | *HTML, **TypeScript, React.js, Tailwind CSS, AppWrite** Link*

∗ Developed a **Full-Stack social media app** with user authentication, profile management, and core features like post creation and interaction.
∗ Integrated Appwrite for efficient backend services, **optimizing data storage and real-time updates.**
∗ Ensured a seamless user experience with **responsive design** principles across devices.
∗ Stayed updated on industry trends, incorporating innovative solutions for **enhanced** functionality.

**Weather App** | *HTML, **Tailwind CSS, JavaScript, ReactJS**, OpenWeatherAPI Link*

∗ Designed and developed a **responsive** Weather React App.
∗ Provides **real-time** weather updates including current temperature, low and high temperatures, and humidity.
∗ Offers a **5-day weather forecast** for advanced scheduling and preparation.
∗ Incorporates sunrise and sunset times into the interface to facilitate better planning and **awareness of daily light** changes.

**Amazon Clone** | *HTML, CSS, Javascript, ReactJS, Firebase Link*

∗ Crafted a fully operational Amazon shopping clone, focusing on user-friendly functionalities.
∗ Led the integration of user account creation and login capabilities, enhancing accessibility and promoting increased user engagement.
∗ Engineered a responsive basket management system, allowing users to easily add or remove items for instant valuation and a smooth checkout experience.
∗ Ongoing development plans include the incorporation of features such as order history tracking and real-time payment processing for an enriched user interface.
